

S-Series In-Depth Overview Quiz

1. Anyone can access the system and get into the settings or access any part of the DVRT unless _____ is applied?
 - (a) a user ID
 - (b) lock setup
 - (c) password lock
 - (d) a password
 - (e) all of the above

2. Whenever password lock is activated, a _____ is required to access any of the settings of the DVRT?
 - (a) a pass code
 - (b) User ID
 - (c) User Password
 - (d) both (b) and (c)
 - (e) all of the above

3. The most important use of a relay is to:
 - (a) sound an alarm
 - (b) activate a zone on an alarm panel to notify a central station if one of the cameras turns off
 - (c) turn on a light
 - (d) lock a door
 - (e) none of the above

4. What will flash when another PC is connected using the remote software?
 - (a) backup light
 - (b) HDD light
 - (c) surveillance mode light
 - (d) network light
 - (e) none of the above

5. A camera is recording motion detection when the camera displays what color?
 - (a) red
 - (b) yellow
 - (c) green
 - (d) blue
 - (e) none of the above

6. A camera is recording continuous mode when the camera displays what color?
 - (a) red
 - (b) yellow
 - (c) green
 - (d) none of the above

7. What items can be renamed to correspond with the appropriate camera?
 - (a) camera previews
 - (b) camera snapshots
 - (c) camera titles
 - (d) none of the above

8. When a PTZ icon is enabled, the PTZ can be moved in any direction and focused by either right clicking on the camera screen or by using what other items?
 - (a) the graphical user interface
 - (b) the pan / tilt / zoom controls
 - (c) the detailed pan / tilt / zoom controls
 - (d) the optional pan / tilt / zoom window
 - (e) all of the above

S-Series In-Depth Overview Quiz

9. Pre-shots and _____ can be preset in the DVRT pan / tilt /zoom option window?
- (a) camera number
 - (b) speed control
 - (c) camera title
 - (d) audio volume
 - (e) none of the above
10. Which PTZ function moves the camera from one preset to the next with a designated dwell time?
- (a) a scheduled preset
 - (b) a panoramic
 - (c) a continuous pan
 - (d) a tour
 - (e) none of the above
11. When viewing any camera full screen, double right click anywhere to return to what item?
- (a) previous camera
 - (b) GUI
 - (c) rotation screen
 - (d) current camera
 - (e) none of the above
12. What happens when cameras are dragged from one position and dropped into another?
- (a) the two cameras exchange places
 - (b) the cameras switch places temporarily
 - (c) the cameras remain even on restarts
 - (d) both (a) and (c)
 - (e) none of the above
13. Real Time Audio is a very important security tool because:
- (a) we can use it to hear what you can not see
 - (b) it can be monitored remotely from the internet
 - (c) recorded audio is always good for court cases
 - (d) both (a) and (b)
 - (e) none of the above
14. Real Time Audio is a very important tool for training employees because:
- (a) owners and managers can hear their employees conversations with customers
 - (b) it can be monitored remotely from the internet
 - (c) employees need to hear what their employees talk about
 - (d) both (a) and (b)
 - (e) none of the above
15. What feature is used to replay pre-recorded video simultaneously while viewing the video live?
- (a) Playback Setup
 - (b) Instant Replay
 - (c) Instant Recording
 - (d) Instant Backup
 - (e) none of the above
16. To save pre-recorded video either as a bitmap or a jpeg, you must do what first?
- (a) fast-forward the video to the beginning
 - (b) rewind the video to the end
 - (c) pause the video
 - (d) play the video
 - (e) none of the above

S-Series In-Depth Overview Quiz

17. The best application for Instant Replay is to use what type of output?
- (a) a dual monitor
 - (b) a TV spot monitor
 - (c) an alarm relay monitor
 - (d) a single monitor
 - (e) none of the above
18. Which feature allows more than one person/remote location to speak to the DVRT site, as well as, with each other simultaneously?
- (a) emergency recording
 - (b) voice recognition
 - (c) voice challenge
 - (d) voice communication
 - (e) none of the above
19. Some of the many reasons we need the ability to communicate simultaneously by voice communication to remote locations include what reasons when an alarm occurs?
- (a) the central station can connect automatically to the DVRT
 - (b) the central station can view the live images, as well as, listen to live audio
 - (c) the central station can use a PTZ camera (if installed) to survey the facility
 - (d) the central station can voice challenge the intruder, notify the police or a guard service, and the home owner or business owner
 - (e) all of the above
20. What feature is used to record continuously a preset number of frames from the Live Mode?
- (a) Instant Recording
 - (b) Emergency Recording
 - (c) Preset Recording
 - (d) Playback Recording
 - (e) none of the above
21. DVRT's are compatible with which two types of recording/backup media?
- (a) CD's
 - (b) DVD's
 - (c) CD-RW and DVD+/-RW
 - (d) CD-RW and VHS
 - (e) none of the above
22. From the Live Mode, left click Backup to open which feature?
- (a) manual backup
 - (b) MMV player
 - (c) recording/backup media
 - (d) automatic backup
 - (e) none of the above
23. When a CD-RW is not formatted, you must left click the CD-RW Format Button to format the CD-RW. This will take how long?
- (a) about 30 seconds
 - (b) approximately 1 hour
 - (c) about 10 or 15 seconds
 - (d) about 10 or 15 minutes
 - (e) none of the above

S-Series In-Depth Overview Quiz

24. A player can be saved to playback the compressed proprietary audio and video therefore, it is not necessary to save the data as what type of file?
- (a) a bitmap
 - (b) a large AVI file
 - (c) a JPEG
 - (d) a wave file
 - (e) none of the above
25. It is recommended to purchase an additional drive, as an archive for your recordings, rather than recording to the C:\ drive because:
- (a) the operating system resides on the C:\ drive
 - (b) the data will be deleted if saved to the C:\ drive
 - (c) the DVRT software resides on the C:\ drive
 - (d) both (a) and (c)
 - (e) none of the above
26. In Playback Mode, the default setting shows the first four cameras enabled. All other cameras have to be enabled in order to:
- (a) save any image to a CD-RW
 - (b) view additional cameras
 - (c) search video from additional cameras
 - (d) both (b) and (c)
 - (e) none of the above
27. In Playback Mode, enabled cameras are what color?
- (a) yellow
 - (b) blue
 - (c) black
 - (d) purple
 - (e) none of the above
28. In Playback Mode, disabled cameras are what color?
- (a) yellow
 - (b) blue
 - (c) black
 - (d) purple
 - (e) none of the above
29. When the screen division plays less cameras than the system has installed, you can switch screen division groups by either:
- (a) selecting the select camera group tab and the camera number
 - (b) left clicking the screen division tab again
 - (c) exiting and restarting the system
 - (d) both (a) and (b)
 - (e) none of the above
30. An image can be zoomed in on a target area by drawing an area and left clicking zoom in or by just left clicking the zoom in button. This statement is what?
- (a) true
 - (b) false
 - (c) never true
 - (d) always false
 - (e) none of the above

S-Series In-Depth Overview Quiz

31. Bookmarks can be retrieved by:
- (a) selecting a specific channel or all channels
 - (b) searching a date range
 - (c) searching all days
 - (d) all of the above
 - (e) none of the above
32. To open the save image window:
- (a) left click backup
 - (b) left click playback
 - (c) left click exit
 - (d) left click the save image icon
 - (e) none of the above
33. CD-RW's:
- (a) are compatible media
 - (b) must be preformatted before written to
 - (c) are cost effective because they can be re-used
 - (d) all of the above
 - (e) none of the above
34. In what format can Images and Video be saved/archived?
- (a) a Bitmap
 - (b) a JPEG
 - (c) an AVI file
 - (d) all of the above
 - (e) none of the above
35. What type of image can be watermarked?
- (a) a Bitmap
 - (b) a JPEG
 - (c) an AVI file
 - (d) all of the above
 - (e) none of the above
36. AVI files can be saved:
- (a) by frames or by times
 - (b) with or without sound
 - (c) can be watermarked
 - (d) both (a) and (b)
 - (e) none of the above
37. From the Print Image window:
- (a) you can display the date and time on an image
 - (b) increase the number of copies to print
 - (c) print more than one image on each page
 - (d) enlarge the print size up to four times
 - (e) all of the above

S-Series In-Depth Overview Quiz

38. To open Playback Setup automatically when Playback is opened:
- (a) check the Auto-Playback box on the Playback Setup window
 - (b) double left click the zoom button
 - (c) depress the push pin on the Playback Setup window
 - (d) both (a) and (c)
 - (e) none of the above
39. The camera recording color chart displays recorded data as:
- (a) FPS (Continuous) Recording is green
 - (b) Audio Recording is yellow
 - (c) Motion Recording is blue
 - (d) Sensor-In (Alarm Input) Recording is orange
 - (e) all of the above
40. In Playback Setup, the Display Event option allows us to view:
- (a) only audio recording
 - (b) only motion recording
 - (c) only sensor in (alarm event) recording
 - (d) only emergency recording
 - (e) all of the above
41. Event Search allows you to search for a specific event caused by:
- (a) motion detection
 - (b) alarm inputs
 - (c) operator error
 - (d) both (a) and (b)
 - (e) none of the above
42. Object Search is used to search for a specific event by:
- (a) using Artificial Intelligence to objectively screen pre-recorded video
 - (b) typing in the object name
 - (c) by searching and detecting motion within a predefined area of pre-recorded video
 - (d) all of the above
 - (e) none of the above
43. When using Object Search, if the sensitivity is set to low:
- (a) object search will not search for events
 - (b) events will not be detected
 - (c) additional nuisance events will be displayed
 - (d) automatically converts to event search
 - (e) none of the above
44. The Point of Sale feature (POS Investigator):
- (a) allows you to collect and store data without displaying the information on the screen
 - (b) allows you to display the information on the screen while the transaction are taking place
 - (c) must display the transaction to record the data
 - (d) both (a) and (b)
 - (e) non of the above
45. The POS Investigator is used to search for video by the:
- (a) transaction ID #
 - (b) type of transaction
 - (c) type of item sold
 - (d) all of the above
 - (e) none of the above
